

1973 GMC Glacier Motor Home

Owner: Barbara Gary

Location: Trumansburg, New York

Email: blumonky@gmail.com

Rust-free, some updating

This '73 GMC Glacier Motorhome spent almost its entire life in New Mexico where I bought it in April 2011, so it has very little rust. I was intending to restore it completely, but find that, due to financial considerations, I must sell. That said, I have done a lot of work on it already and have all receipts for that work.

First things first, the GMC starts right up and runs well. Of course its easy and fun to drive. The rebuilt Olds 455 cu. in. engine has 5,000 miles on it so it's broken in but not worn out. The carburetor has also been rebuilt and aftermarket temp gauge, etc. installed (see the photo of the dash.

Brand new on the outside: Struts, tie rods, ball joints, etc. New shocks and brakes. One new airbag and a leveling system that works. It has six new tires with only 2,000 miles on them. They are mounted on original wheels. Speaking of original, it also has four original hubcaps.

Automotive

- Engine and carburetor rebuilt.
- Tires with 2,000 miles

Interior

- Reupholstered seating surfaces.
- Captains chairs with flip-up table
- Rear lounge makes to double bed
- Dinette converts to bed.

Ready for New owner

Brand new on the inside: Norcold refrigerator/freezer, furnace, and electrical converter.

The seats have been recovered while most of the rest of the interior is in original but good condition. There's a 4-burner Coleman stove and oven with vent. It has the typical storage space of a 26-foot GMC and the side bathroom with toilet and shower. There's one roof-top, low

profile AC unit, a ladder but no storage pod on the roof. Of course, it has the Onan 600-watt generator.

Comes with original manual and schematics though it's in need of a little more TLC, but would be easy to finish the restoration to its original glory. The paint, since it's the good stuff GMC used, should look nice is properly buffed though the new owner might want

a fresher paint job – it'll be your decision.

If you are interested, contact me and I'll be happy to send more pictures and we can go from there.
